Pam Phelan, PA-C

"I chose Interventional Radiology for the diversity, autonomy, and dynamic nature of this specialized area of medicine."

Education

Pam Phelan is a Board Certified Physician Assistant with 26 years of clinical experience. Her healthcare journey began as a Registered Nurse in the Cardiovascular Intensive Care Unit.

She pursued a career as an advanced practitioner earning a Master of Science degree in Physician Assistant Studies at A.T. Still University in 2005. In 2006, she became one of a handful of Interventional Radiology Physician Assistants in Arizona.

Pam has a passion for collaborative patient care, innovative medicine, and process improvement.

Associations

Pam is an active member of the Society of Interventional Radiology and the American Academy of Physician Assistants.

Background

Pam was born and raised in Glendale Arizona. She and her family moved to Oregon in 2021. She enjoys spending time outdoors and traveling with her husband and two adult children.

Pam has participated in several endurance events including completing two Ironman Triathlons.

"I believe compassion, mutual respect, and thorough education are at the heart of a successful providerpatient relationship. My approach to patient care is to be genuine and confident while empowering patients with the knowledge needed to make informed healthcare decisions."
-Pam
